

Free Program Makes it Easy For Eligible Georgians to Save on Prescription Medicines

Millions of Americans take prescription medicines each day to stay healthy and to treat disease. To help individuals without prescription coverage access the medicines they need, many of the nation's leading pharmaceutical companies sponsor the Together Rx Access® Program. This prescription savings program helps eligible individuals and their families gain immediate access to meaningful savings on prescriptions right at their neighborhood pharmacy. Most cardholders save 25 to 40 percent* on brand-name prescription products. Medicines in the Program include those used to treat high cholesterol, diabetes, depression, arthritis, asthma, and many other common conditions. Savings are also available on a wide range of generic products. The Card is free to get and free to use.

In August 2008, the State of Georgia and Together Rx Access collaborated to bring Georgians the first state-specific Together Rx Access Card – Together Rx Access FOR GEORGIA Card. As part of this effort, the State will use existing resources to identify residents who may benefit from Program.

For more information, and to determine eligibility, visit TogetherRxAccess.com or call 1-800-979-3569.

*Each cardholder's savings depend on such factors as the particular drug purchased, amount purchased, and the pharmacy where purchased. Participating companies independently set the level of savings offered and the products included in the program. Those decisions are subject to change.
